GALAXY

In terms of spatial transformation, our chair transcends the boundaries of conventional design by detaching, manipulating, and redefining the materials' inherent properties to create its own unique rhythm. This rhythm mirrors the radiance of an afternoon sun, the sparkling brilliance of a starlit sky, and the blooming splendor of flowers, emerging at those moments when life feels challenging, when mountains and seas seem to churn, and clouds roar in the sky.

设计理念

DESIGN CONCEPT

通过设计师的创作，把材料与材料之间进行重组，使肌理与形状之间游离聚合。在空间上完成转换将物像的材料从自身抽离，操控，生成自己的律动。该律动如同午后的骄阳，璀璨的星河，绽放的繁花，在你不如意时，山海翻滚时，云海咆哮时出现遇见你，撞见你，沉醉不知归路。

SENSE OF SUSPENSION
悬　浮　感

云初的灵感来自流动的云朵，以流动的线条，悬浮感的结构来构建产品的整体造型。让原本静止的产品有了流动悬浮的感觉。

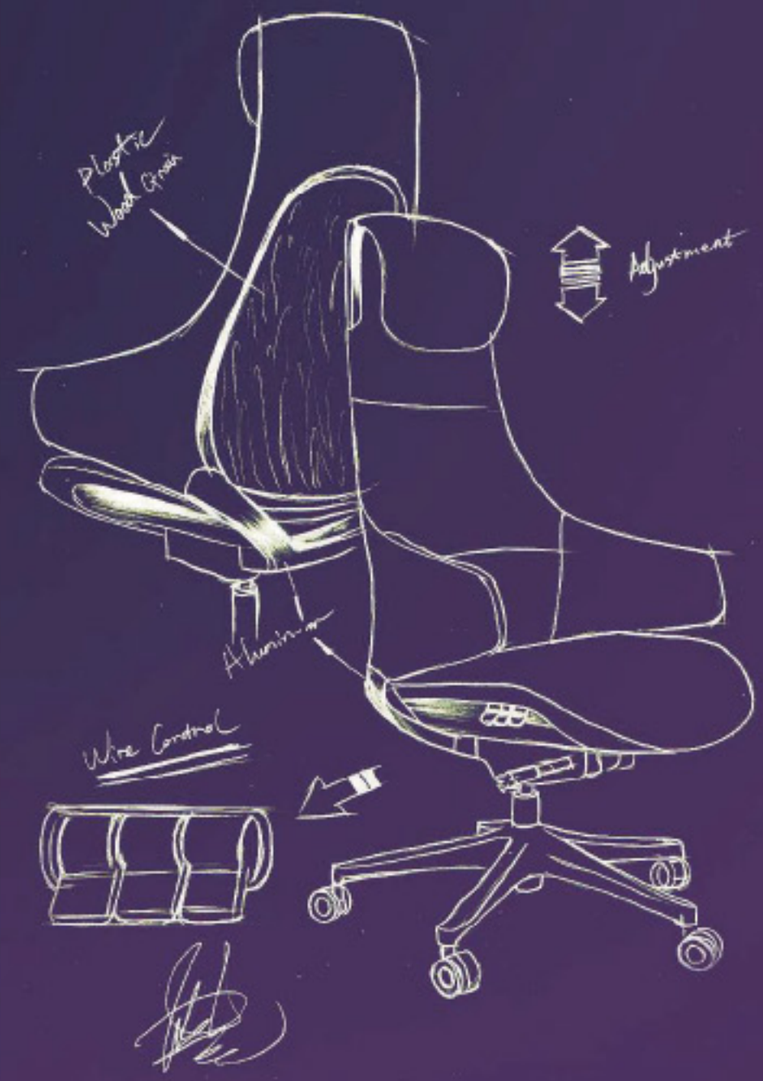

头枕用合金作为支撑，悬浮滑动轻盈流畅。椅身线条流畅，在坐垫上面运用材质本身的视觉差，加深悬浮感。

云初无论是框架还是细节，都更加侧重于功能的实用性，坐感的舒适性。微妙的设计让产品本身更加精妙绝伦。

The inspiration for "Cloud" comes from flowing clouds. The design of the product's shape is constructed with flowing lines and a suspended structure, giving the originally stationary product a sense of flow and suspension.

The headrest is supported by alloy, floating and sliding, lighting and smooth. The chair's body has smooth lines, and the visual difference of the material itself is used on the cushion to deepen the sense of suspension.

Cloud's framework and details are more focused on functional practicality and comfortable sitting. Subtle design makes the product itself more exquisite.

ART

设计师灵感来源

DESIGN CONCEPT

S-F设计灵感来源于一条扭曲了的线条，扭曲的外形与萨克斯风（乐器）的外观那般流畅、灵动，同时隐约中感受到一股力量从身后瞬间地把你带入音乐的世界，里面环绕着美妙的音符，这是一种无与伦比，强烈而微妙的体验感。

The s-F design is inspired by a twisted line. The twisted shape is as smooth and dynamic as the saxophone, and at the same time, you can vaguely feel a force behind you that instantly pulls you into the world of music, surrounded by beautiful notes. It is an unparalleled, intense and subtle experience.

萨克斯风
属于LINK YOU的艺术符号

在古典音乐和爵士乐演奏必不可少的乐器，乐器把乐谱上的每个音符都恰到好处地呈现于我们可感受的周围。它像一股无形的力量，或大或小的张力，一切照着该有的旋律有序地包围着你，同时像化作一连串的符号，让你随时读懂它背后所蕴含的力量。
乐器可以成就一个音乐作品的品质，同样一个完美的设计可以颠覆我们对产品的认知。我们把对音乐的感受化作一种可触摸的符号，融入到产品的每一个细节上。

In both classical and jazz music, the instrument is essential for placing every note on the sheet music just right around where we feel it.
